**Life is better
with broadband®**

Why Broadband

Broadband is critical to Nevada's future! High-speed Internet connection is the modern lifeline to critical services that support and improve your quality of life:

-  **Jobs** – Opportunities for telecommuting & website creation to sell local products worldwide
-  **Education** – Access to countless research databases & higher education
-  **Telemedicine** – Bringing new medical services to your area through web conferencing & easy case-sharing
-  **Government** – Access to government information & services
-  **eCommerce** – Locate, buy, & ship online

How It Works

Connect Nevada is a nonprofit organization working with the Nevada Broadband Task Force to increase broadband Internet access throughout the state. Connect Nevada is focusing on expanding broadband access, adoption, and use by designing and implementing regional broadband deployment strategies. The plans will include partners from both the public and private sectors, all working together on local and regional technology planning, technical assistance, and ultimately, increased broadband adoption and digital literacy. Connect Nevada will also continue taking the state's broadband inventory on a semi-annual basis and mapping the results to ensure all remaining gaps in broadband availability are addressed.

How We Can Help

-  **Community Support** – Our regional development teams help plan for broadband expansion in your region
-  **Tech Support** – Our experts help communities plan the technical details for broadband expansion
-  **Relationship Advocate** – We work with every broadband provider in Nevada to help you communicate your needs, questions, & concerns
-  **Partnership Assistance** – We help foster public/private partnerships to support local broadband expansion
-  **Free Tools** – We offer tools to test your speed, tell your story, get a technology assessment, or request service

How You Can Help

-  **Do a speed test** from your home, work, and other frequently used locations (<http://speedtest.connectnv.org>)
-  **Provide us a main contact person** in your area who can help champion local broadband expansion
-  **Keep in touch** with us about problems, progress, and questions. If we know what you need, we can help connect you with the resources you need to enable your local broadband plans

"IN TODAY'S DIGITAL WORLD, BEING CONNECTED TO THE INTERNET IS CRITICAL TO PRESERVING AND IMPROVING LIFESTYLE. BROADBAND GIVES YOU THE OPPORTUNITY TO WORK FROM HOME, TAKE ONLINE CLASSES, AND MARKET YOUR PRODUCTS - ALL OF WHICH HAVE A POSITIVE IMPACT ON THE LOCAL ECONOMY."
